

# Campbell River Waste Management Centre Landfill Gas Management

September 12, 2019  
CSWM Board Meeting

# Approach to address non compliance

## Working with our consultant

- Reviewed history
- Balancing the cost, environment and landfill airspace

Analysis included:

- Effectiveness of Landfill Gas in a partial closure
- Estimated costs for each option
- Impact on Comox Valley waste management centre
- Impact on the environment – Carbon credit recommendation

# Following through with the Plan

- The service is willing to become compliant
- We can close when we say we will
- Borrow, plan and execute the plan as laid out in our 2017 design operations and closure plan
- The financial plan shows this commitment
