Subject: Late Delegate Application

Good morning,

Please accept this email as my formal request to appear as a late delegate speaker at Thursday Nov 14, 2019 Comox Strathcona Waste Management Board meeting.

I wish to address the board regarding a number of concerns I have with the siting recommendation for the proposed Regional Compost Facility. Here are a few of the points I wish to cover:

- Proximity to neighbours - Block J approx 250 meters/ NVEC approx 500 meters
- Domestic sewage and water available at NVEC/Block J will require well drilling where 2018 CVRD water monitoring reports states "leachate impacts continue to be observed."
- Space requirements - ALC decision states that Block J non-farm use is only approved on previously disturbed areas and is not amendable. 6.0 hectares - 3.9 hectares already in use leaves 2.1 hectares of approved land. NVEC has 2.9 hectares of immediately available land, with more becoming available in the future (2036 City of CR intends to stop applying bio solids at NVEC and CVRD reports intention to start adding bio solids to compost in 2038)
- Waste water treatment plant is located at NVEC

Thank you for your time and consideration.
