Chair and Directors  
Comox Strathcona Waste Management Board

I respectfully request the board's consideration of the following:

THAT the Comox Strathcona Waste Management Board consider replacing the "assessed value" method of taxing for solid waste with a "flat tax" per household based upon equitable charges to each household that contributes to our waste stream at our landfills;

AND FURTHER THAT this proposal be fully investigated by staff and the outcome of these investigations presented with the Solid Waste Management Plan Review in 2022.

Respectfully,

Brenda Leigh  
Director
